

Dansville Middle School Board Report:

Michael Sheridan was hired to replace Jeremy Beck as our 7<sup>th</sup> and 8<sup>th</sup> grade science teacher. He lives in the Dansville School district and has two children who attend Dansville. He attended Michigan State University where he majored in Agricultural Communications and now, after realizing his joy for working with kids, has decided to make it his profession by enrolling in the Accelerated Certification Residency Program through Saginaw Valley State University.

Our Report Card AIT team (District Wide) utilized a work day to reformat our report cards to support standard based grading. Teachers sent their grade level clear learning targets to our technology coaches for the district to start inputting standards in the hopes to release the report card in November.

Spring Math and FastBridge testing has begun. All students 6-8 were given assessments in both math and reading to establish data points for each student.

Krista Voss and her class hosted a Dansville Tailgate on Friday, September 13. Students prepped for the occasion by preparing food, practicing their social skills, and learning how to prepare for a gathering of guests.
