

High School Board Report February 2023

- 1. FFA District Leadership Contests:** We had the pleasure of hosting this year's FFA District Leadership Contest!

Congratulations to Danielle Erisman and Megan Zeitz who earned silver awards in the job interview contest. Bailey Little also earned a Silver award for his public speech on the Right to Repair.

Both our Demonstration teams earned a Gold award! Katie Meade, Carly Rutledge, and Makayla Arevalos did a presentation on Maple Syrup Production. Sophia Parent, Liz Dase, Jill Fishback, and Adwin Uribe-Molina did their demonstration on cattle castration and are the alternate to regionals.

Sasha Sherrick and Mariah Green placed first in Prepared Public Speaking and Greenhand Public Speaking!

Sasha Sherrick then went on to place second at the Region IV Leadership Contests! She will present her prepared public speech on Aquatic Invasive Species at State Convention!

- 2. Parent's Night Out (Junior Class):** The Junior class hosted a Parent's Night Out for the community. Many families participated and the kids had a great time. The high school students planned gym games, had crafts, and watched movies with the students. It was great seeing our high school students interact with the younger students.

- 3. Senior Night(s) & Post-Season Competitions:** Our winter sports have been doing very well! We celebrated our Senior Wrestlers and their parents and continued celebrations with 4 boys and 2 girls advancing to Individual Regionals, and one wrestler then advancing to the State Finals. Bowling senior, Brian Root, and his parents were celebrated along with the team's first win over Central-Montcalm. Girl's and boy's basketball Senior nights are upcoming and we're excited to see how both of their seasons continue to go. This year we will host Girl's Basketball Districts so come on out to join in the fun!
- 4. SAT Prep:** We've increased our SAT prep and are planning activities for our half-days and advisory sessions to better prepare and give confidence to our Juniors as they approach the SAT. Our math courses are also working through problems each week and talking about testing strategies. Through the use of Khan Academy and College Board accounts our students will be able to take practice tests, watch videos on testing tips, and start to build their confidence and testing endurance.
