

Dansville Middle School Board Updates

October 2022

- Dansville Middle School students spent the September half-day participating in a variety of activities related to online safety. Students had an opportunity to learn and have discussion about their digital footprint, online safety, and how to report issues using the OK2Say tip line.
- The Student Council sponsored a dance for our middle school students. The event was well attended, and the kids had fun dancing, visiting with friends and enjoying refreshments.
- DMS students are being recognized for going above and beyond with our monthly 7 Mindsets theme. Teachers nominated students who then received a certificate for exemplifying “The Time Is Now” as it relates to setting goals and working hard.
- Our students worked together to create cards and posters for Kayden Keith as he continues to recover from surgery. Additionally, the athletic department donated proceeds from the last home football game to help his family with medical expenses.
- Tania Dupuis participated in professional development offered by the Michigan Association of Secondary School Principals (MASSP). “In the Middle with You” are a series of monthly sessions focused specifically on managing the challenges facing middle school students.
