

High School Board Report October 2022

- **Passion Hour** was a huge success on our last half-day and we are looking forward to exploring new options as we work to increase student engagement and improve school culture. *Passion hour is a time built into our half-day schedule where teachers offer to share a passion of theirs with students. From playing the guitar to community service we offered a number of different options and heard an overwhelming “yes” when asked if we should continue it.

- **Assemblies** have also gone very well this year with more and more students participating in the competitions and earning points for their dorms. Our Leader changed recently, see below:

- **Student Council** has been putting itself out there to drum up interest in joining the group. Their latest effort was a cider and donut handout Monday morning to start the week off on a good note.

- The **Drama Club** told us a secret in their performance on Saturday. It was a great performance and they are excited to start working on the next play!

- **We Are Connected:** We celebrated some of our students for their various efforts in connecting with others, helping make connections, and being exhibiting this mindset in other ways.
